Steeped in tradition yet modern in outlook, Oman is the essence of a Middle Eastern country that has emerged from history as a forward thinking and culturally diverse nation. The Sultanate is both romantic and timeless offering its residents every opportunity to embrace the twenty first century without compromising the riches of a more traditional way of life.

It has been described as the jewel of Arabia and with good reason. Much of its dramatic coastline remains untouched with majestic mountains soaring from the arid interior regions right down to the sea.

The Sea of Oman teems with all manners of sea life and turtles choose to nest in vast numbers on the quiet pristine beaches.

The Wahiba Sands offer the chance of fairy tale desert adventures and the Boswellia trees of the Dhofar region yield an abundance of frankincense. In this land there is something for everyone.

Muscat, Oman's capital city, is the cosmopolitan hub of the country. With a population of nearly two million people, it boasts the beautiful Sultan Qaboos Grand Mosque and a jaw dropping, state of the art opera house that has contributed enormously to the cultural life of its residents.

Traditional souqs successfully co-exist with modern shopping malls and the city hosts an array of world-class hotels. Commercial life is vibrant as Muscat attracts a growing number of international companies and the economy grows more robust year by year.

Most remarkable about Oman is the warmth of its people. Their natural smiles and words of welcome embody what it means to be hospitable. Living in Oman is a truly rewarding experience and it soon becomes clear why many people who visit this ancient land choose to stay a little longer.

Zunairah 2 offers the ultimate in luxury living. The ocean, the beaches, yachts and The Wave Muscat itself inspire the design of this villa. All living spaces offer extensive views of the water and the courtyards blend the landscaping and water features inside the property, striking a perfect balance between indoor and outdoor living. This provides an atmosphere of tranquillity and calm.

Carefully selected colours ensure a harmonious and natural feel and are incorporated into an exclusive, elegant and clean design. The linear shape of the villa provides its owner with unobstructed views, while naturally giving a sense of enclosure and privacy. Each villa has a spacious rooftop master bedroom with chillax seating area and outdoor terrace.

Subtle transitions from green courtyards to living spaces ensure that rooms become increasingly private the further you enter the villa. The elegant multi-level interiors are designed as a contemporary family villa, blending different textures and subtle tones to create a sophisticated fusion of traditional Arabic and modern design elements.

The concept for Zunairah 5 maximizes privacy and the view of the horizon. The Zunairah 5 is based on the idea of opening and fragmenting a dramatic volume intercepted by light and space to form a U shaped villa that maximizes external views and creates shaded areas, voids and terraces that evokes privacy and intimacy.

The villa consists of transitional building elements from natural stones to timber and white wash walls creating an authentic yet contemporary feeling. The private internal spaces connect with a seamless fluidity as nature intended generating a series of diagonal perspectives, transparencies, panoramic views and visual impacts between the exterior and the interior.
